### Tribal Comments to Clean Power Plan

Greenville is among the tribes represented in a comment letter on the Clean Power Plan proposed federal plan from the CA Association of Tribal Governments. The tribes wish to participate in the potential trading markets under the Clean Power Plan and are interested in a national tribal plan so that tribes can participate and benefit without relying on state plans. Please see attached letter for more information.

### Tribal Materials Management

The Tribe has submitted a proposal for FY 2016-2017 GAP funds to develop an Integrated Solid Waste Management Plan (ISWMP). If funds are approved, the ISWMP will serve as a road map for the Tribe to define their solid waste program and to develop fundamental aspects of tribal materials management.

The Tribe has nine open dumps listed in wSTARs. Once the ISWMP is approved and they meet all GAP Guidebook requirements, the Tribe may request to clean-up the dumpsites using GAP funds.
